

SPRING BEAR HUNTING IN IDAHO Mike and Dawn Richie are donating a spring Idaho black bear hunt for one hunter (winner must bring another hunting buddy at normal price), April - June of 2012. This hunt is 7 day guided bear hunt in the Selway-Bitterroot Wilderness area.

Enjoy professionally guided black bear hunting with Richie Outfitters. During your secluded hunting experience you will not hear the sounds of road hunters with ATV's or pickup trucks or anything remotely close to civilization, aside from your companions, of course. You will enjoy the sounds of the wind blowing through the leaves and the branch's of trees, the serene sounds of the flowing Selway River and the occasional howling of the Canadian grey wolf.

Idaho Unit 17 is a 2 Bear area (you are allowed 2 bear tags) with many different color phases. A lot of black bears call the drainage of the Selway their home. You choose your style of black bear hunt. In Idaho, dogs (hounds) may be used to hunt bears. Black bear hunting with bait is allowed with a required permit. We provide the permit. No females with cubs may be killed. Spot and stalk hunting is also an option.

This is a horse back hunt that includes full tent camp accommodations, food, guide and one black bear. A second bear may be taken if time allows for a \$500 additional trophy fee plus tag. License is an additional \$154.75, tags are \$31.75 each. Bush plane flight required and the \$400 air charter fee is the buyer's responsibility. Hunters choice of weapon. Add more hunters for \$1800 each. Bill Hilgers & Alan Heth have successfully hunted with Mike in the past . Beautiful wild country every hunter should visit at least once in a lifetime. LOTS OF COLOR PHASE BEARS! See website for more information and photos. www.richieoutfitters.com **100% Donation Donor Value \$1800**
