

# Exclusive Inspirations

Jennifer Damrow, Owner

Jennifer Damrow resides in Madison, Wisconsin as a full time jewelry designer and owner of Exclusive Inspirations. She uses Argentium Sterling Silver and 14/20 14kt gold filled wire to create her one-of-a-kind designs. All of her stones are unique and come from numerous locations from across the globe. Jennifer also collects and cuts many of the unique stones in her jewelry. Each is carefully selected for beauty and artistic allure.

Jennifer grew up on a farm south of Mosinee where she learned about the gem, mineral and fossil world from her father, Paleontologist Dan Damrow. After growing up with the business, and developing a love for unique stones, Jennifer decided to start her business in 2002 with her father. Great successes followed, and she soon developed her own business, Exclusive Inspirations, in 2007.

Jennifer travels to gem and art shows across the Midwest throughout her year. Art shops are carefully selected to display the most special pieces, and selections are updated regularly.

*"I hope you enjoy and appreciate the uniqueness of each stone and cherish it forever. These are some of the real treasures of our planet."*
