ESPACAZA

We have been firmly in business since 1976. Since then, our main goal is to give an extremely good service as well as the highest quality trophies in Spain.

In Spain we specialize in stalking the various species of big game as well as the red legged partridge drives and the traditional Spanish "Monterias".

Since 1976 many European and American hunters have hunted with us in Spain and many other countries Worldwide.

SPANISH EXPERIENCE

The Sportsman as well as the non hunting companion will enjoy an unforgettable journey by combining the hunt with many other activities.

The historical landmarks, the great

RED LEGGED PARTRIDGE

Due to the courage of the sportiest Red Legged Partridge these Spanish shooting parties are renowned all over the world. We organized most of our drives in "Castilla la Mancha" area.

Usually the hunting parties shoot from 2 to 4 days . The Line is usually made from 6 to 10 guns, each one accompanied by two "secretarios" one acting as a loader and the other looking to see the birds fall. Generally, there are five drives a day and average hunt can bag from 400 birds to 1000 a day between the whole group.

The hunting season runs from October to mid-February.
